

# EPP plenum box for air valve FLX-PLO-EPP-F

## Description

The FLX-PLO-EPP-F plenum boxes are part of the FLX-REKU air distribution system designed for domestic mechanical ventilation systems, so-called the MVHR system, to which an air valve and FLX-HDPE / FLX-HDPE-A ducts with a diameter of Ø75 are mounted.

Due to their small size, they do not require much space or special installation. This allows achieving a larger usable floor area of the room.

The FLX-PLO-EPP-F plenum boxes are made of expanded polypropylene, i.e. EPP. The material used allows obtaining an aerodynamic shape of the inside of the box which leads to low air resistance.

### Key features:

- EPP is an insulation material  $\lambda=0.0038$ , the wall thickness is about 8 to 31 mm.
- The profiled internal shape of the box reduces pressure drops
- "Double" FLX-HDPE duct fixing - the male connection spigot with a gasket on the inside and EPP casing on the outside
- The plenum boxes do not corrode
- Spigot ( $d_1$ ) for an air valve with graduation to be cut to size as required - 40, 60, or max. 80 mm.
- 2 installation methods - with 3 screws and wall plugs or with 17-25 mm-wide PB perforated tape

The FLX-PLO-EPP-F plenum boxes are equipped with TPE gasket on  $\varnothing d_2$  spigots as a standard - such connection with FLX-HDPE ducts is airtight and easy to make. For building residential ventilation systems in ATC2 (D) air-tightness class acc. to EN 17192:2018.

### Product code example

Product code **FLX-PLO-EPP - 75 - 2 - 150 - F**

type \_\_\_\_\_  
 diameter  $\varnothing d_2$  \_\_\_\_\_  
 number of spigots n \_\_\_\_\_  
 diameter  $\varnothing d_1$  \_\_\_\_\_  
 female connection \_\_\_\_\_

## Dimensions

FLX-PLO-EPP-75-1-100-F

FLX-PLO-EPP-75-2-125-F

FLX-PLO-EPP-75-3-125-F / FLX-PLO-EPP-75-3-160-F

	A	B	$h_1$	$h_2$	$D_1$	$d_1$	n	$d_2$
	[mm]	[mm]	[mm]	[mm]	[mm]	[mm]	[szt.]	[mm]
FLX-PLO-EPP-75-1-100-F	134	194	75	80	125	100	1	63
FLX-PLO-EPP-75-2-125-F	217,5	219	75	80	155	125	2	63
FLX-PLO-EPP-75-3-125-F	315,5	256,2	75	80	155	125	3	63
FLX-PLO-EPP-75-3-160-F	315,5	256,2	75	80	190	160	3	63

Spigot ( $d_1$ ) for an air valve with graduation to be cut to size as required - 40, 60, or max. 80 mm

The profiled internal shape of the box reduces pressure drops

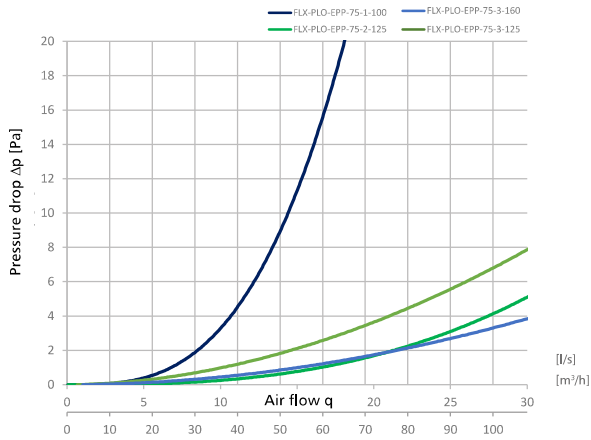

The FLX-CS-PVC end caps fit the  $\varnothing d_2$  connection spigots of FLX-PLO-EPP-F plenum boxes.

## Types of plenum boxes

FLX-PLO-EPP-F - female connection spigot  $\varnothing d_1$

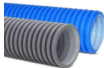

## How order

FLX-PLO-EPP-d2-n-d1-F

Type - FLX-PLO-EPP-F  
 $d_2$  - FLX-HDPE-75 ducting diameter  
 $n$  - number of spigots for FLX-HDPE ducting (1, 2 or 3)  
 $d_1$  - air valve diameter (100, 125 or 160mm)

You may also need:

-  EPP reduction 125 by 100 mm  
FLX-PLO-EPP-RC-125-100F
-  KN, KW Air valve
-  FLX-HDPE / FLX-HDPE-A Semi-rigid ducting
-  FLX-CS-PVC End caps
